Summary

(6)

The target appears to be a hard rugged repeating structures or natural formations like valley like areas. It seen hot and humid with some vegetation that reminds me of cactus or desertlike plants. Colors present were brown, tan, blue, and pink. The area was vast and huge. There was a feeling of awe, and beauty. The overall gestalt was dramatic nothing up and down.

not good great

I felt like my session was not
my best, possibly my worse ever.

3 was my rate out of 10.
