Summary

The target seems to be a ^{small} set of structures, cubic, connected (clustered). Some element is large - Flat - cementy / stoney tan. another element is vertical metallic, possibly cylindrical. Colors ^{in general} are tan green, I hear pinging sounds (like the clanging of a flag pole) there is a sloped element to a tall element in the scene Breezy, and a seemingly grassy area..

Ao1 - Summary

My Ao1's made me think of an outdoor park or plaza with a small building. The greater area surrounded by grass. ~~Part~~ A Public space outdoors

Post-Session Reflections

I was not settled mentally and
~~felt~~ like I was not connected to
the target.

I rate my feeling about defining
the target as a ~~4.5~~
3 out of 10.
