Post-session reflections

Some confusion on this one - first

Several pages seems to focus down on a target
I had generated for the rest of the folks. Don't
know if that was the one chosen for this
go-round, or if John had included something
similar in his target set for me. In any
case, as I went beyond that I felt
connected to S/L but confused. At best
I think this one is a 6 out of 10.
