The target seems to be a location
that is rolling, transparent, wavy,
aired yet feels condensed, something is
salty grainy, circular, narrow, alternating,
curved, edges, layered, attached, cracked,
something here seems connected, growing,
piled, seasoned, rounded tubular, tall,
narrow, spreading. Seems isolated, bordered,
connecting, meeting, perpendicular, self
supporting, solid & strong. It feels as
tho something is vibrating - energy - directed
purposeful, positioned, resonating - Also stabilized,
internal, directional, situated, optional, metallic,
attached, adjoined. Something here feels
forfeited / abandoned, useful, purposeful,
open, vacant, very vast and elevated

This location feels distant, spacious,
natural. Energy here is created, nature
manmade & not manmade, ancient,
powerfull, fixed - not fixed & transferred.
It feels specific, serving, beneficial -
something about outcome, interwoven,
irregular, resonating, gathering, committed,
outside, focused, internal & multi-cultural

Post Session Reflections

Felt more comfortable with the process

Today - room temperature much better. The session seemed to feel more fluid and I believe I had an average session again.

5/10.
