The target seems to be a structure
 that is boxy, beige, blocky, grainy, masonry.
 Seems like there is waunter, dusty,
 particles, shining & dull, reddish, dry.
 Something may be dropping, brownish, may
 be a motor sound, possibly surfaced,
 labeled, formed, man-made, metallic &
 sealed. Seems structured, patterned,
 ridged, overlapping, linked or joined. Somewhere
 at the target feels curved, rising, wide,
 tall, flat, expanded. Something feels
 structured, busy, possibly people here,
 in sync, recording, procedural, contrary,
 bland. Something about the target
 feels duplicated, multiple, curved or scalloped.

Some aspects seem controlled, fingered,
~~set~~ susceptible, empty, void, placed,
spreading, emanating, correlating, achieved
& static. It feels crucial, important
secure, private, & connected.

Post session reflections.

I felt that my session was way off this afternoon, not really feeling that I was on the signal line at all. I did, however, feel totally comfortable in the environment. 1/10
